When I was a young man and first encountered *Lolita* I was pleasantly taken with the audacity of the good Professor Vladimir Nabokov's intent. Like most undergraduates it was clear to me that "shocking the bourgeoisie" was always good sport. Now that some decades have passed and I have had the opportunity to re-read the novel and then to read it a third time with the insights provided by Professor Alfred Appel's annotations, I can only say, it is a singular pleasure and a troubling experience. *Lolita* is everything a great novel should be, challenging us intellectually, disturbing us emotionally, leading us to fascination and revulsion, making us question our values and our preconceptions while compelling us to turn the pages. A close and sober reading leaves one feeling a kind of tristesse, as the French say, that cannot be easily dismissed. On the one hand, the conception and development of the novel is brilliant. The language is Joycean, the ironies delicious, the plot twists delightful, the theme compelling, the characters indelible, the milieu veracious. On the other hand, the "unreliable narrator"--I never liked that term: he's reliable; he just isn't admirable--who is the novel's central character, Humbert Humbert, the Old World dirty middle-aged man taking sexual advantage of a child whom he has trapped, is without doubt a vile creature. And yet--and this is part of the genius of the novel--one cannot help but identify with his

tainted love, his hopeless, doomed passion. And indeed one even identifies with the task he has perversely inherited, that of looking after a teenaged girl and keeping her out of harm's way, a formidable task with which almost any parent can identify.
