Only Drunks And Children Tell The Truth

Synopsis

Only Drunks and Children Tell the Truth is the emotional story of a woman's struggle to acknowledge her birth family. Grace, a Native girl adopted by a White family, is asked by her birth sister to return to the Reserve for their mother's funeral. Afraid of opening old wounds, Grace must find a place where the culture of her past can feed the truth of her present.

Customer Reviews

Mixed blood Ojibwe writer Drew Hayden Taylor touches the heart with this two act play which relates the pain and grief resulting from government programs in which Indian children were virtually stolen from their parents to be adopted by non-natives. The plot revolves around the newly found relationship of long-separated sisters who have been reunited; one from the reservation and the other an urban raised attorney. A short play of pathos and humor, the characters are very alive and will remain in the reader's memory. This reader found herself hoping to have an opportunity to see the play performed someday.

I started this book. It's day two and I'm almost finished. What a page turner-laugh, cry, and get an education in one book on the Native People's culture. I now want to read the play that proceeds this one.
