Night Wolf: A Novel Of Viking Age Ireland (The Norsemen Saga Book 5)

Synopsis

With their ill-fated raid on the monastery at Glendalough torn apart by betrayal and defeat, Thorgrim Night Wolf and his handful of survivors from the crew of Sea Hammer find themselves in desperate and tenuous straights. Stranded far from the safety of VÃ-k-IÃ , surrounded by enemies, and with barely enough men to work the longshipâ™s oars, the Norsemen must make their way back through a dangerous and uncertain country. Thorgrim, however, is not interested in mere survival. His one thought, his one desire, is to take revenge on those whose treachery led to the slaughter of so many of his men. Assembling an ad hoc army of unlikely allies, Thorgrim leads his warriors to a final showdown that can end only in his enemiesâ™ death or his own.

Customer Reviews

I've read just about everything James Nelson has had published, fiction and non-fiction alike. He's a captivating story teller, whether spinning yarns about the American Revolution at sea, the Confederate navy, or Vikings in Ireland. With book 5, The Norseman Saga counts as one of Nelson's longer tales. "Night Wolf" has been one of the best yet. I'm looking forward to book 6!

James Nelson's maritime fiction is great and now his Viking series has become one of the best available. He created great characters, a good plot, and exciting action. I think he has been historically accurate also.

Having read many other authors with books spread across 500 years of English history, I stumbled upon James L. Nelson Viking series by accident. One of the best 'mistakes' ever. Working thru all 5 books I found Night Wolf to be the best of the group. The chapter on the battle in the river was great, as if I was front and center of the action. James is a great writer of many historically based books and I look forward to reading many more. Thanks you James for sharing your gift.

Once again spending time with Thorgrim Night Wolf is an exciting adventure! Mr. Nelson can't write these fast enough! So well written, such strong characterization you feel you are on the adventure with his characters! Can't wait for the next book in the saga.

I think Nelson found his pace and place in this one. I've read all the proceeding books and, while I enjoyed them, they seemed a bit off. Not sure how to say it but... not complete? Not professional? I know I'm not using the right term. Anyways, if you like Viking stories than read the proceeding 4 books, you'll like them for what they are. This, Nelson's 5th book, seems to have finally stepped it up. He's good now. I like this book very much, the style has evolved, I'm really into it and I'm looking forward to more. Mainly, Nelson fine tuned his like of using the "perspective view" of differing characters chapter to chapter. Vague Spoiler*****Our protagonist prevails and in a magnificent way. I was glad to see that. Other characters evolved or were more fleshed out. Some even turned and I was thrown for a loop! One of the antagonist even got his in the end and I audibly said, "Ha!" when it happened. I'm still wondering if characters from the first few books will make another appearance. I'm looking forward to finding out.

I had just finished a so-so trilogy and was completely surprised and enthralled to see Nelson had completed a "next" novel. I already read the previous ones and was sad to finish them. So when this one came up on my suggestions, I couldn't wait to read it. It had been months since reading the previous one, but I easily picked up and remembered the last novel. Nelson created just as much suspense as ever. He describes with just enough detail to give you a mental picture. And just when you think you have the plot figured out, he twists it just right! I loved the pace and had a difficult time

putting down the novel each night.

This last book of the Norseman's saga is as intense and as intriguing as Mr. Nelson's previous books. It is a cliff hanger that will have you on the edge of your seat during the entire tale. The characters continue with their colorful personalities and weave a most satisfying tapestry of war strategy and life during the Viking age in Ireland. This book has a satisfying ending with room for the sagas' continuance. In hopes that there will be more books to follow, I would recommend this book to anyone who enjoys an exciting tale of war, history, adventure, mystery and vivid characters who become your enemies & friends; a story whose readers will keep coming back for more. Thank you Mr. Nelson for a most enjoyable book!

I waited for this, the 5th. book in the series, with hopes of it being as good as the first 4. It was a good read but it didn't make it to that level. There were holes that should have been filled, too many narratives from too many characters. I hope that the next one in the series gets back to his story and makes you feel like you are part of the action and not just an observer that can't quite see everything going on.
