Evacuation (The Boris Chronicles Book 1)

Synopsis

The Russian Mercenary known as Boris has always been a conundrum for governments the world over. His visage never changes, his capabilities never understood. The Russian government gets word he has been killed on a mercenary mission in America, allowing agents to come in and attack the villages Boris has been protecting. Using a fanatical military sub-group in the Russian military, the atrocities start. The only problem? Boris isn't dead, and now he has help. Boris won't allow his people to go unprotected, and now the Queen Bitch herself has accepted his oath of fealty. Russia doesn't have a clue what they have started when this Bear comes back from the Dead.*****Please note, as mentioned in a review on a book in the main series, there is flagrantly foul language in these novels. The main character does not have a problem with cussing, just uninspired cussing.

THE BORIS CHRONICLE

Evacuation - The Boris Chronicles 01

Coming Soon: Retaliation - The Boris Chronicles 02

Customer Reviews

Very much enjoyed this collaborated spinoff from Michael Anderle's Kurtherian Gambit series. Paul Middleton has done a great job with this book and definitely looking forward to more in this series. I've read many series where different authors have written in another's literary universe and usually they don't feel like the same universe but Paul has done a great job in keeping the feel of the world in line with Michael Anderle's world while at the same time, making it feel like his own story.

Sorry, I really wanted to love this book. It was okay, but just that, okay. It moves along fast, maybe too fast to really grow character development. The additional character of Janna comes in at the end suddenly and without any build up, boom, is a main character? What? Imo, she should have been added earlier on as a sub-plot and thrown in every couple of chapters to build her story up. Also, the story and the action scenes are so simple and easy for the characters. Kidnap, go get them, done, next part, done, next., swear allegiance to a new Czarina, done, no questions asked and no build up or anything. Sorry, could tell this was mostly written by a first time author and edited by the main author in the series.

Great read; although I feel you need to discover a better to end an episode. An excellent collaboration; looking forward to future episodes. Though It would not hurt a thing to just turn the entire thing into a full fledged novel, that runs parallel with BA's doings; Then at the end of the novel it blends in seamlessly with (hopefully) with wherever you have BA in her story line...??? Just a thought.

I am always sceptical when the universe created by one author is tampered with by another. In this case I was pleasantly surprised as Boris' story fits right in. Considering this character was conceived by Paul and accepted and introduced by Michael in his series I should have known this would go

well. I am looking forward to the continuation of Boris' story. More to come (soon, I hope).

This is a mindless romp in the world of the Kurthian Gambit. It almost qualifies as a novelette instead of a full book. It is not as good as the base series which is also mindless violence. But it is a quick read like picking up a comic book; although many comic books have deeper plots. Breaking this into three books is also unnecessary except that is how the author is releasing them. Frankly I think it would read better as one book with three sub stories. This bordered between 3 and four stars frankly leaning towards 3. But the price slipped it to three and half and rounded up.

Love the series this book is coming from and enjoyed the character of Boris. Will look forward to many more and hope to see it tied into the Kurthian books again. Boris rocks and seems to have a lot of honor and love for his people!

The story is great, the characters are well developed, and I look forward to seeing how this story grows. As long as the next piece is much longer and does NOT end at what is the opening of an action sequence.

I am a great fan of Michael Anderle series the Kurthian Gambit. I also see the potential in this spin-off series. The problem I have is that this book does not measure up to the series itself. If I was reading it from the perspective of a stand alone from a new author I would be more generous, but as a spin off to well written and established series, it left me sadly disappointed. The plot was rushed and other than the main character there was minimal character development. The book was also far too short, I can see it as the start of the book but by itself it is sadly lacking. I will wait for the 2nd book to see how it does but unless there is significant improvement it will be a detriment to the Kurthian Gambit series.
