Scholastic Explora Tu Mundo: Los Planetas: (Spanish Language Edition Of Scholastic Discover More: Planets) (Spanish Edition)

Synopsis

A new-generation reference book about the building blocks of our world, for kids used to surfing and swiping. All children want to learn their place in the universe, discover how our planet fits into the solar system, and are blown away by the crazy, big facts and stats of space. Welcome to a tour of the major planets, moons, dwarf planets, asteroids, comets, and other rocks and gas that orbit the sun. The latest NASA and European Space Station images, many unique to this book, are combined with up-to-the-minute information from space experts across the globe, and modern graphics to entice confident and reluctant readers alike. And there's lots to do! Track Venus at night, create alien life, and interact with the brave men and women of the International Space Station to unlock the secrets of the Milky Way online and offline. Los niños desean aprender acerca del universo y nuestro planeta. Por eso este libro lleno de actividades, fotografías y datos fascinantes les brinda la maravillosa oportunidad de visitar el espacio.

Age Range: 7 - 10 years

Grade Level: 2 - 5

Customer Reviews

Este es el mejor de los libros científicos para niños que conozco. De verdad me interesa

hasta a mÃ- y mi esposa. Primero, es moderno y tiene los datos de hasta hoy como por ejemplo, excluir PlutÃ n del listado de los planetas de nuestro sistema solar. TambiÃ©n tiene el telescopio Hubble, la estaciÃ n espacial internacional, y el nÃºmero verdadero de lunas de los otros planetas. A mi hijo le encanta por las fotos y las tablas que le dan un sentido preciso de la comparaciÃ n de tamaÃ os de los cuerpos celestiales. Es bastante largo y por lo cual, al leerlo, le pido a mi hijo que seleccione algunos 'capÃ-tulos' (son de dos pÃ¡ginas). TambiÃ©n, cÃ mo hay tanto en el libro, nunca nos cansamos de leerlo. Se lo recomiendo con mucho entusiasmo, Â¡no se va a desilusionar! Ahora, solo hace falta que nuestro gobierno siguiera pa'lante con el programa espacial...

My kids love this book. The photos are awesome. This book really sparked my son's interest in the celestial world. It is especially great to find a book like this in Spanish as my kids are bilingual.

Not as complete as expected, but is a good start point for those interested in our galaxy.
