The New Fear

Synopsis

In the previous volumes of Brian Keene's critically-acclaimed non-fiction series, the author faced off against fellow writers, unscrupulous editors, corrupt politicians, scandalous C.E.O.s, organized religion, professional sports, the entertainment and publishing industries, crazed "fans," egocentric celebrities, corporate America, and even God. But now, Keene must do battle with his greatest enemy. Himself. This third volume, which collects more of the best of Hail Satan, offers a fascinating look inside the mind of one of the horror genre's brightest new talents-and a horrifying glimpse of what happens when that same mind declares war on itself. It also includes fan favorites such as the Adam Senft saga, publishing with beautiful nudes, the horrors of insta-broil, and for the first time anywhere, the original draft of Keene's C.I.A. essay (which was unpublished at the request of the U.S. government). The only thing we have to fear is ourselves.

Customer Reviews

This third installment of Brian Keene's internet blog is chock full of goodies. He covers everything from crazy fanatics to honest advice for aspiring writers. Filled with black humor, Brian loves to rant about everything under the sun. In *The New Fear*, he'll give you his opinion on politics, publishers, and his crazy roadtrips, whether you like it or not. His non-fiction is always my favorite to read, so I'll keep my fingers crossed for a fourth volume hopefully in the near future.
