Don't Call Me Crazy! I'm Just In Love: Book 1 Of 2

Synopsis

I could not put this book down. Swiyyah Woodard is a phenomenal author and she has an anointing in her writing. And I know it was God who wrote this book for her. • First Lady Samantha Franklin • “United Kingdom of Christ Fellowship (UKCF) • Hands down this is one of the best books that I have ever read in my life. When I first heard Swiyyah speak I said to myself I had to get this book because it’s a fantastic read and I think everybody should get this book! • “Rashida Strober National playwright • I had the opportunity to read, • Don’t Call Me Crazy! • and it was a very powerful book. That really made me feel refreshed as a reader that I got to learn something and I had a good time and a good experience reading this book. -Jahari Christmas Pokerface Productions. Award-winning author, Swiyyah Woodard, teaches others how to overcome mental illness through a suspenseful romance inspired by her own powerful story. Don’t Call Me Crazy! • Just in Love is a romantic drama about a young woman who wants to marry the love of her life. In order to fulfill her dream, she has to overcome drama from her gossiping friends who despise her lover, drama from her future mother-in-law who despises her, and drama from an obsessed young man. After weeks of chronic stress, she develops the most debilitating psychotic disorder known in the mental health community: schizophrenia. Required reading for High schools and colleges.

Customer Reviews

Swihhay Muhammad, in her debut novel, gives readers a love story with a twist. Anika and Mosi met in their business class and they immediately hit it off. After eight years, Anika desperately wants to get married but they are still dealing with issues of trust and his infidelity. Mosi tries to convince her of his love but Mary and Rachel, Anika's meddling friends, counter his efforts. As they struggle to make their relationship work, Anika meets David. David, who is sexy and charming becomes infatuated with Anika and begins to stalk her. The story becomes complicated as Anika struggles to deal with everything around her. She becomes stressed, confused and angered. She soon finds herself hospitalized and diagnosed with a mental illness. Muhammad does a splendid job of telling the inside story of a person struggling with a mental illness. The story was told, however, in third person, which can be difficult for some to read. I would recommend this book to any one interested in understanding a mental illness. Reviewed by: Priscilla C. JohnsonAPOOO BookClub

I learned a lot reading this book and as a medical professional it really opened my eyes even more. I was intrigued by Anika and the way she was portrayed; smart, beautiful, very articulate. I know mental illness is real and I appreciated reading the life of this individual. Thanks for sharing...looking forward to part 2. Because I honestly think Mosi is the "crazy" one.

Thank You Swiyyah! This is a very entertaining, and informative story. Each chapter heading made me want to keep turning to see what was next for Anika. I found it very surprising that an individual could look so "well-adjusted" externally, yet be seriously troubled as you vividly described. Also, the overall look of your book is very appealing. After reading "About the Author" I am convinced that yours is an unbreakable spirit; this book HAD to be written...thank you for doing so!

This book is a true story based on the author's life of being diagnosed and living with schizophrenia. Mental illness is a very taboo subject that people just don't talk about. This could be due to being embarrassed or the fear of being labeled. It could also be due to the lack of knowledge about the subject. I commend the author for having the courage to tell her story in hopes that it will help others to get a better understanding of schizophrenia and that it is possible to function and live a normal life

with proper education, training, and medications.

In *Don't Call Me Crazy! I'm Just in Love*, the author Swiyyah Muhammad takes you on a wild ride as she guides you from one corner of her mind to another. She has a dynamic spirit and a fierce soul to match. Immediately, you get the feeling that the world is at her fingertips and you begin to feel its at yours, as well. The author shares a very real side herself that many wouldn't dare to reveal and does so eloquently. Beautiful.

I was blessed to personally meet the author of this book and she is an awesome woman and a great person. This book, "Don't call me Crazy" I'm just in love is absolutely a must read! It is very exciting love story! When you start reading this book you must have time to read it because you won't be able to put it down. Mental illness is something that people don't like to talk about but it is very real so it need to be talked about. People that have mental illness have families and they don't need to be ignored. I can't wait to read more of her books. God Bless you! Be encouraged!!Valerie

This is an outstanding piece of work.Swiyyah really shares with us many unique ways to look for deeper truths and lessons from people most of us have met.I myself had an experience with a person like anika but it ended up exactly the same way it ended with anika.I reccomend this book just to understand how people in any relationship change later.

Recently, I read this book and could not put it down until done. When I got to the last chapter I did not realize it because it was the natural thing to expect more. I understand that there is a part two coming out and I cannot wait to read it! I thoroughly enjoyed reading this book! The characters jump off the page and stare you in the heart, mind and soul. Excellent read!
